

## Point-of-Care Medication Dispensing with Pharma Pac

Easy as 1, 2, 3

Whether you're a private practice, urgent care center, onsite employee health clinic or a student health center, point-of-care medication dispensing can be easily integrated into your daily operations in 3 easy steps.

Because our process is so streamlined, it doesn't require extra space or time from you. Once you're up and running, you can dispense to your patients in minutes, which creates more efficiency by reducing the number of steps from prescription writing to dispensing.

>> Let us walk you through how easy it is.

### Start Dispensing in 3 Easy Steps

#### STEP 1

##### COMPLETE YOUR NEW CUSTOMER PACKET

Visit our website to access and complete your New Customer Packet, which includes:

- Pharma Pac Application & Agreement Form
- DEA Questionnaire Form
- POA for DEA Form
- Payment Form (e.g., ACH, Credit Card)
- Pharma Pac Signing Approval Form

We will also need copies of the following:

- Your current formulary list
- Your physician's state medical license
- Your DEA license

#### STEP 2

##### CREATE YOUR ACCOUNT

Once you complete, sign and return your packet to us, and you have been verified as a physician/practice in good standing, we will have your account up and running in 1 – 2 days.

Then, we will work with you to create your formulary of the medications you prescribe most often and the associated price of each.

#### STEP 3

##### SOFTWARE TRAINING

Your account will automatically be linked to our clinical dispensing partner and as soon as you receive your first order, we will provide you with a 30-minute training session to help you navigate your account.
